Subject: Proposal for Planning Activities Associated with Modifications to Implement Surface Water Treatment at the Drinking Water Treatment Facility

Dear Mr. Whalen:

CDM Smith is pleased to present this proposal to provide professional services to help the City of Fernley (City) implement a new surface water supply at the City's drinking water treatment facility. In response to our discussion on July 18, 2018 and follow-up to the draft proposal submitted to the City on July 24, 2018, we have attached a scope of work that will include the following six tasks:

- Water Treatment Facilities Planning;
- Coordination with Surface Water Supply Project;
- Coordination with Regulators;
- Miscellaneous As-needed Activities;
- Project Management; and
- Quality Management.

We anticipate the work will begin in August 15, 2018 and be completed by June 30, 2019. The not to exceed cost for CDM Smith to provide these services is \$25,000.

We recognize the importance of a reliable, resilient and sustainable drinking water system to the City, and we look forward to working with you on this project. Please contact us with any questions or to discuss the proposal in more detail.

Sincerely,

Michael A. Zafer, P.E.
Project Manager/Technical Director
CDM Smith Inc.

Servando Molina, P.E.
Vice President
CDM Smith Inc.
