**Re: Truckee Canal Diversion and Conveyance Final Design
Proposal for Professional Engineering Services – Addendum No. 2**

Dear Dave:

AECOM Technical Services, Inc. ("AECOM") is pleased to provide the City of Fernley ("City") this Addendum No. 2 to the original Contract for Professional Engineering Services, dated March 22, 2018, related to the Truckee Canal Diversion and Conveyance Final Design.

Supplemental work consists of the addition of a second mag meter facility for Truckee-Carson Irrigation District's (TCID) use, and plan submittal to the Bureau of Safe Drinking Water (BSDW), Nevada Division of Environmental Protection.

Scope of Work

Task 3.3 – 100% Plans (Addition of meter at TCID Canal)

This task included adding a second mag meter at the TCID canal and preparation of plans, technical specifications, and an opinion of probable construction cost for the addition. The plans and specifications were prepared in conformance with the City of Fernley Design Standards and included complete design of the interconnecting piping, mag meter, vault, telemetry and other pertinent appurtenances. The additional mag meter was requested by TCID operations staff and will be used to meter water deliver from the TCID canal to the City's water treatment plant.

Note: Supplemental work for Task 3.3 was verbally authorized by the City of Fernley on January 8, 2020. Plans and specifications were finalized and submitted to the City and BOR for review on January 29, 2020.

Additionally, AECOM will submit plans and documents to the BSDW for review and approval and include emergency shutdown guidelines within the specifications for Contractor adherence. Included in the fee schedule is a \$300.00 application fee for BSDW submittal.

All deliverables and/or assumptions shall be per the initial Contract for Professional Engineering Services, dated March 22, 2018, related to the Truckee Canal Diversion and Conveyance Final Design.

ADDENDUM FEE SCHEDULE

AECOM provided Design Services for Task 3.3 on a Lump Sum basis for \$22,970. Lump Sum fees are outlined in Exhibit "A" for each task.

Exclusions and Assumptions

Thank you for the opportunity to provide you with this proposal and should you have any further questions or comments, please do not hesitate to contact me at 775-722-5095 (tom.guinn@aecom.com).

Sincerely,

A handwritten signature in blue ink, appearing to read "Tom Guinn".
