**RE: 2.5 MG Sage Storage Tank Recoat Project
Fernley, Nevada
Tank Coating Inspection**

Dear Ms. Weitzel:

CME, Inc. is pleased to provide this cost proposal for tank coating inspection services. CME, Inc. will provide NACE certified personnel to provide the required inspections in the Project Technical Specifications. Our services will be provided on a part-time as needed basis for the duration of the project.

Attached is a summary of our anticipated scope of work and associated fee estimate. We have included overtime hours to cover weekend and early morning inspections.

Our anticipated scope of work will include providing full-time, eight-hours of inspection during the first week of tank blasting, tank pre-paint preparation and preliminary tank coating. Coating inspection will include exterior and interior. Full-time inspection will also be performed during any structural repairs or rusted surface rating of 5 or less. The remaining weeks of surface prep and recoat painting will be provided on a part-time daily inspection trip of four-hours. Pre-project submittal review, review of contractor's project application procedures and the overall QC program will be provided by our inspector.

All services will be provided on a time and expense basis in accordance with our current standard fee schedule for an estimated fee of \$43,260.00. As you know, our services are dependent on your construction schedule. Any changes to the mentioned scope or schedule may result in a change in cost. Please issue a City of Fernley professional services agreement upon your approval.

We appreciate the opportunity to provide our construction support services. Please do not hesitate to call if you have any questions or comments.

Sincerely,

CONSTRUCTION MATERIALS ENGINEERS, INC.
